MEMORANDUM FOR: Assistant Deputy Director for Intelligence
SUBJECT : Communist China Administrative Atlas

1. A memorandum dated 21 August 1969 with the same subject as above has been forwarded to you from the Office of Basic and Geographic Intelligence. That memorandum requests an outside distribution, particularly to the academic community, of the recently published Communist China Administrative Atlas. I should like to support strongly the OBGI request and the distribution pattern recommended in paragraph four of the OBGI memorandum. The details of distribution can be worked out between DCS, OBGI, and myself this fall. Actual distribution should be delayed until late September or early October when the academics are back at their offices again in order to get the maximum benefit from DCS distribution.

25X1A

2. I constantly encounter highly favorable comment from a wide number of academics concerning the quality and usefulness of the Map Folio which we distributed two years ago. That gesture on the Agency's part has generated more widespread goodwill than any single item that I am aware of in my three years as Coordinator for Academic Relations.
